ABDELRAHMAN MOHAMED

Full-Stack Software Developer (.NET)

Cairo, Egypt • +201152270980 • bodabanzen1818@gmail.com • LinkedIn • GitHub • Portfolio

PROFESSIONAL SUMMARY

Full-Stack Software Developer focused on building scalable web applications and backend services using C#, ASP.NET Core (.NET), RESTful Web APIs, Entity Framework Core, Microsoft SQL Server, and React.js. Hands-on experience containerizing and deploying cloud-hosted production systems on Microsoft Azure and Vercel with database optimization, caching, and rate limiting, combined with a solid foundation in computer science fundamentals, algorithms, and cross-platform mobile development.

TECHNICAL SKILLS

Backend & APIs: C#, ASP.NET Core (.NET), RESTful Web APIs, Entity Framework Core (EF Core), LINQ, Object-Oriented Programming (OOP)

Database & Cloud: Microsoft SQL Server, Azure SQL Database, Microsoft Azure, Docker, Vercel

Frontend & Mobile: React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Vite, Responsive Web Design, Flutter & Dart (Firebase)

Core CS & Engineering Tools: Data Structures & Algorithms, C++, C, Python, Git, GitHub, Visual Studio, VS Code, Linux, VMware

SELECTED PROJECTS

Nusuk Community Platform (nusukcodes.site) | Production Full-Stack Web Application — Live Site

C# • ASP.NET Core Web API (.NET) • Entity Framework Core • Microsoft SQL Server • React.js • Vite • Docker • Microsoft Azure

- Architected and deployed a live bilingual (Arabic/English) community platform for sharing and discovering verified Nusuk Challenge invitation codes, connecting a React.js and Vite frontend on Vercel with a containerized ASP.NET Core RESTful Web API on Microsoft Azure.
- Engineered resilient data access with Entity Framework Core and Microsoft SQL Server, implementing transient-fault retry policies, in-memory response caching, IP rate limiting, and atomic duplicate-action prevention.

Restaurant Canteen Ordering App | Cross-Platform Mobile Application — GitHub

Flutter • Dart • Firebase Authentication • Cloud Firestore • Google Maps API • GetX

- Developed a full-featured mobile food ordering application supporting customer browsing, cart checkout, live order tracking, and role-based canteen manager workflows backed by real-time Cloud Firestore synchronization and Google Maps location selection.

Global University Ranking Engine | Algorithmic Data Processing System — GitHub

C++ • Custom Data Structures • Sorting & Search Algorithms • File I/O • Performance Benchmarking

- Built an analytics and recommendation engine in C++ to process large university ranking datasets, benchmarking custom sorting and searching algorithms to optimize query speed and memory efficiency.

Procedural 2D Console Physics Engine | Systems & Simulation Project — GitHub

C • 2D Physics Simulation • Real-Time Game Loop • Console Rendering

- Implemented a lightweight 2D physics simulation engine in C featuring a configurable real-time game loop, collision mechanics, procedural motion behavior, and ASCII playfield rendering.

PROFESSIONAL EXPERIENCE

Coding Tutor | iSchool - DEMI Physical Session — Jul 2026 – Present

- Instruct students in programming fundamentals, computational thinking, and structured problem-solving through interactive, project-based coding sessions.

Customer Service Representative | Concentrix — Mar 2026 – May 2026

- Resolved complex customer and technical support inquiries in a fast-paced environment while maintaining high quality-assurance and first-contact resolution scores.

Web Developer Intern | Morshedy Group — Sep 2023 – Dec 2023

- Developed and maintained internal web application modules using C#, HTML, CSS, and JavaScript, and optimized SQL Server queries to reduce page load times by 20%.

System Administrator Intern | Orange Egypt — Aug 2023 – Sep 2023

- Configured and monitored virtualized Linux server environments on VMware, automating routine health checks and administrative workflows using Bash scripts.

EDUCATION

Bachelor of Computer Science — Graduated Dec 2024

De Montfort University, UK & Asia Pacific University, Malaysia — Dual Degree Program

CERTIFICATIONS & VOLUNTEERING

- Meta Front-End Developer Professional Certificate — Feb 2026
- CCNA: Introduction to Networks, Cisco Networking Academy — Feb 2022
- Volunteer, Arab Red Crescent and Red Cross — Mar 2025 – Present
- Intercultural Awareness and Cultural Diversity — Dec 2021
